

ABDELRAHMAN SAMI ABOZARIFA

Student @ The Egyptian Russian University - ERU | Artificial Intelligence

 [Cairo](#) •  [01097457086](tel:01097457086) •  [Email](#) •  [Portfolio](#) •  [LinkedIn](#) •  [GitHub](#)

Summary

Aspiring Artificial Intelligence specialist with a solid foundation in Python, C++, and SQL. Active contributor to innovative undergraduate projects at the Egyptian Russian University. Committed to continuous learning and eager to apply AI expertise to drive future technological advancements. Anticipated graduation in 2026.

Education

The Egyptian Russian University - ERU

Bachelor's Degree in Artificial Intelligence

09/2022 - 07/2026

Relevant Coursework: Artificial Intelligence, Machine Learning, Data Structures, Object-Oriented Programming, Algorithms, Database Management Systems

Projects & Extracurricular Activities

Dental Clinic Website

07/2023 - 07/2023

Developed a responsive and modern website for 'White Smile' dental clinic, providing a user-friendly experience with sections for services, team members, and customer reviews.

[GitHub Link](#)

Egyptian Vaccine Tracking System

05/2024 - 06/2024

Implemented a C++ system to manage and track COVID-19 vaccinations for Egyptian residents, including personal and vaccination information management and statistical insights for administrators.

[GitHub Link](#)

Simple Chatbot

04/2024 - 05/2024

Developed a Python-based chatbot to interact with users conversationally, serving as a foundational project for understanding natural language processing and chatbot development.

[GitHub Link](#)

Sorting and Searching Algorithms

03/2024 - 04/2024

Created an educational Java application featuring a GUI for visualizing and interacting with various sorting and searching algorithms.

 [GitHub Link](#)

Car Agency System

05/2023 - 06/2023

Implemented an OOP system in Java to manage a car agency, modeling employees, customers, cars, and accessories with functionalities for managing these entities.

 [GitHub Link](#)

Clothes Shop Database

05/2024 - 07/2024

Designed and implemented a SQL database to manage a clothes shop's operations, including inventory, sales transactions, customer information, and supplier details.
